Well we made it through the tropical storm on Tuesday. The City of Shoreacres faired very well. We had no street flooding and only three large trees came down. One landed on top of a garage and house. The other two missed everything. Police officers were on patrol throughout the entire storm. With the wind out of the North, North West, the bay water was blown out at low tide. The streets drained well and even the streets that normally flood did not. I would like to remind all citizens that the city's web sight contained an hourly update by the City Administrator, David Stall on the tropical storm. It was updated not only with television information but NOAA weather service and flight service along with conference calls made by the state of Texas emergency management. If you were not in town you can check the web page and get an update anytime there is a major storm or event. Road construction on Westview and East Bayou are almost complete. The street is finished but the driveways connecting to the street still need to be done.

School will be starting again very soon. Please obey the no parking signs on Westview and Byway. We know the crowd is very heavy the first couple of days but you can not park on both sides of the street. If that happens only one vehicle can go down the street at a time. We always have two that meet and neither will back up. Police officers will be at both locations directing traffic, answering questions and giving out tickets. Remember to school zone and the stopped school buses. The school buses now have video cameras that come on when the school bus is stopped with flashing red lights on to load or unload students. It will take your picture if you pass it. The videos works very well in court.

Attached are the stats for the Commercial Vehicle Inspections and the month to month stats.
